

SSMMS Nonwoven

Manufactured on the Latest Reicofil 4 Line from Reifenhauser , Germany. It is a process where 2 layers of Meltblown Fabrics are sandwich between PP on both the sides making a superior SSMMS fabric.

- Composition: 100% polypropylene
- Type: Spunbond + Spunbond + Meltblown + Meltblown + Spunbond
- Weight: 8 gsm to 80 gsm
- Width: 4200 mm Max.
- Finish:
 - Medical three repellencies - anti-blood, water-repellency, alcohol-repellency
 - Antistatic
 - Antibacteria
- Application:
 - Medical Protect**
Surgical gown, Protective clothes, Patient clothes, Operation cover, Operation cap, shoe cover, sheet, etc.
 - Sanitary and Health**
Baby diaper, Feminine hygiene, Hygiene pad, Baby training trousers, Incontinence pads, etc. cover of the high absorbent material after Hydrophilic treatment, diaper edge for preventing leaking, Diaper backing after composite with other material
Operation cover, Operation cap, shoe cover, sheet, etc.

BICO Nonwoven :

Bi-component non-woven fabric manufactured by means of Reifenhauser technology from polypropylene (core) and polyethylene (sheath). The polyethylene sheath of the individual filaments (continuous filaments) gives the resulting non-woven fabric very specific qualities that include the following:

- Softness and very pleasant feel
- Excellent, comfort qualities in contact with the most sensitive Parts of human skin
- Higher elasticity
- New quality for hygienic applications (baby nappies, ladies hygiene or incontinency products)
- Higher possibilities of binding (polyethylene) with other materials for composite fabric in automotive or building industries

These main advantages of BICO non-woven fabric are present in all the applications where there is a direct contact of sensitive human skin with non-woven fabric. The main applications include baby nappies, ladies hygiene and incontinency nappies and towels

Features:

- Basic surface density from 15 gsm to 80 gsm
- High fibre uniformity and fineness from 1.5 den
- Possible hydrophobic or hydrophilic treatment
- Max Width : 3200 mm / 126 inches
